---

## Full Stack Developer

---

- **Dynamic leader of software development teams** with more than 10 years of experience developing native mobile solutions as well as cloud based applications.
- **Skilled in all phases of the software development lifecycle**; expert in translating business requirements into technical solutions; and fanatical about quality, usability, security and scalability.
- **Over ten years of experience** in full stack development – as both backend and frontend engineer. As well as first hand experience in server management.
